Komorbiditelerin zona hastalığı riskini arttırdığını düşünüyor musunuz?

■ Evet
■ Hayır
■ Kararsızım

Erişkinlerin aşı ile hastalıklara karşı korunmasının önemli olduğunu düşünüyor musunuz?

TÜRKİYE GENELİ

- Kesinlikle düşünmüyorum
- Düşünmüyorum
- Kararsızım
- Düşünüyorum
- Kesinlikle düşünüyorum

ZONA (herpes zoster) riskine karşı korumada hangi grupları önceliklendirirsiniz?

- Bağışıklığı baskılanmış hastalar
- Kronik rahatsızlığı ve komorbitesi olan hastalar
- 50 yaş ve üstü herkes
- Hiçbiri

Erişkin aşılarının rutin sağlık kontrollerinin bir parçası olarak görülmesi gerektiğini düşünüyor musunuz?

■ Evet
■ Hayır
■ Kararsızım

Aşağıdaki aşıları hangilerini hastalarınıza önerdiniz ya da uyguladınız?

- Grip Aşısı (Influenza)
- Zatüre Aşısı (Pnömonokok)
- Zona Aşısı (Herpes Zoster)
- Hepatit Aşısı
- Meningokok Aşısı
- Tetanoz-Difteri Aşısı
- HPV aşısı

■ Aşı önermedim/uygulamadım

Aşağıdaki ifadelerden hangisi erişkin aşıları önerme hakkındaki görüşlerinizi en iyi şekilde açıklar?

- Tüm hastalara erişkin aşıları öneririm
- Kronik rahatsızlığı/komorbiditesi olan hastalara erişkin aşıları öneririm
- Bağışıklığı baskılanmış hastalara erişkin aşıları öneririm
- Hastalarımın erişkin aşıları önermem

Grip aşısını kimlere önerirsiniz?

- 50 yaş üzeri tüm bireyler
- 65 yaş üzeri tüm bireyler
- 65 yaş üzeri kronik hastalığı olanlar
- Huzurevlerinde/Bakımevlerinde kalanlar
- Sık grip geçirenler

Zatüre Aşısını (Pnömonok) kimlere önerirsiniz?

- 50 yaş üzeri tüm bireyler
- 65 yaş üzeri tüm bireyler
- 65 yaş üzeri kronik hastalığı olanlar
- Huzurevlerinde/Bakımevlerinde kalanlar
- Daha önce Zatüre geçirenler

Rekombinant zona aşısını kimlere önerirsiniz?

- 50 yaş üzeri tüm bireyler
- 65 yaş üzeri tüm bireyler
- 50 yaş üzeri kronik hastalığı olanlar
- 18 yaş ve üstü immüno Kompromize kişiler
- Huzurevlerinde/Bakımevlerinde kalanlar
- Daha önce zona geçirenler
- Devam eden postherpetik nevralji (PHN)'si olan kişiler
